Cookies

Bedrock Storage and our service providers use cookies, web beacons, and other technologies to receive and store certain types of information whenever you interact with us through your computer or mobile device.

This information, which includes, but is not limited to: the pages you visit on our site or mobile application, which web address you came from, the type of browser/device/hardware you are using, purchase information and checkout process, search terms, and IP-based geographic location, helps us recognize you, customize your website experience and make our marketing messages more relevant. This includes Bedrock Storage's content presented on another website or mobile application.

Technologies such as: cookies, beacons, tags and scripts are used by Bedrock Storage and our marketing partners, affiliates, or analytics or service providers, e.g. call tracking platforms. These technologies are used in analyzing trends, administering the site, tracking users' movements around the site and to gather demographic information about our user base as a whole. We may receive reports based on the use of these technologies by these companies on an individual as well as aggregated basis.

We use cookies to identify customer status, test segmentation, and referral source. Users can control the use of cookies at the individual browser level. If you reject cookies, you may still use our site, but your ability to use some features or areas of our site may be limited.

Aggregate Information

The Site may track the total number of visitors to our Site, the number of visitors to each page of our Site, browser type, IP addresses, External Web Sites (defined below) linked to and other aggregated data collected through our services and we may analyze this data for trends and statistics in the aggregate but such information will be maintained, used and disclosed in aggregate form only and it will not contain personally identifiable information. We may use such aggregate information to analyze trends, administer the Site, track users' movement, and gather broad demographic information for aggregate use.

Disclosure of Personally Identifiable Information
